TIMOTHY HAY IS REDUCED IN PRIC

Mountain Trout Goes Up 5 Cents Pound Wholesale-Trade Is Dull.

In accordance with the reports of crop oming in, timothy hay has gone down \$15 a ton. This is the first of a series eductions, as with the harvesting of th crops hav will be more plentiful.

One change has been made, or rather ! ussociation which will be of interest t will be sold by weight instead of by small bales. The association feels that it is a imposition that the public should have t do their buying by small bales, for which they pay 40 and 50 cents. While this does not to much affect the public at large

those who have occasion to buy staw will appreciate it.

Given grocers complained yesterday that the heat was just knocking the bottom out of their business. No new kind either of fruit or vegetable was brought in, with the exception of Ultah peppers. Some very flue specimens of goosoberries are to be seen on the market. They are called Malta goosoberries, and come from Mill Creek. They are just ripe, and all the better for not having been forced on the market too soon.

As for the butchers, they are suffering from the double effects of the heat wave and the scarcity of Eastern meat. Very little ment, comparatively, is being eaten just now, and there is very little, except home grown to be had.

Both black bass and mountain trout are very scarce this summer! The price of the latter has gone up 5 cents on the wholesale quotation, and is now 35 cents a pound. Retail it is worth 40 cents a pound. Retail it is worth 40 cents a pound.

Grain and Provisions.

CHICAGO July 21.—Renewed apprehen-sion as to possible Anglo-Russian compilcations caused atrength in wheat today Rains in American harvest districts were

Rains in American harvest districts were also a leading influence. At the close September wheat showed a gain of P&c. Corn Was up &c. cats are &c higher and provisions up 10c to 12%.

Opening quotations in September wheat were unchanged to &c to &c higher at Signature of the Signature of the West and Southwest was largely responsible for the firmness manifested at the start. The further delay in the marketing of new wheat resulting from the additional rains was a good reason for fresh purchases by those who had sold out the day before in anticipation of immediate heavy receipts. Some of the buying, however, was actuated by another motive. A revival of fears regarding difficulties between Russia and Great Britain had much to do in bringing out the active demand at the opening. Another factor in the situation was the estimate of a French journal on the wheat crop of France. The figures showed a reduction in yield of \$2.16.30 per cent.

With such a combination of crop and war news the market became quite excited shorts being exceedingly anxious to cover sales of July. The price of that delivery jumped &c between trades. Offerings were so light that the price was soon more than 3 cents above the initial ghures. The strength of July was reflected in the more distant deliveries. September advancing to \$5% Late in the day the advance in July was lost in realizing, but the future options held at the top. Closing quotations on September were

lzing but the future options held at the top. Closing quotations on September were at \$55,085 fc. July ranged between \$31.59 fc and close at \$55.0 fc. The market and flour were equal to \$1,000 bushels. Frimary receipts were \$51,000 bushels. Frimary receipts were \$51,000 bushels computed with \$51,000 bushels computed with \$51,000 bushels a year ago. Minneauoils Duinth and Chicago reported receipts of \$225 cars. against 176 last week and 215 a year ago.

Strength of wheat was largely responsible for the firmness of the corn market. The market closed almost at the high point. September opened a shade lower to a shade higher at \$100 c to \$100

HUSLER'S FLOUR.

Strength of wheat was largely responsible for the firmness of the corn market. The market closed almost at the high point. September opened a shade lower to a shade higher at 49th to the state of the strength of the latter figure. Local receipts 16 cars, tend contract.

Sentiment in the oats market was bullish, partly because of the strength of other grains, but chiefly on account of the small local stocks and the poor prospects of receipts being much increased in the near future. After opening with a loss of the at 23th, September held up to 35th, where it shood. Local receipts were ninety-five cars.

The impression that packers were supporting hog products turned a rather weak provision market into a strong one, the entire liat showing good gains. The selling pressure at the start was due to the settlement of the strike and to a large run of hogs at lower prices at the yards. The close was practically in the high point. September pork being up 125th at 812.825; lard and ribs were each up for at 825th fibe respectively.

Estimated receipts for tomorrow, wheat, thirty cars corn, 207, oats, fifty-six hogs, 18.00 head.
